

More Than A Stranger

Justin Caruso

I saw you across the room
Got you in my head now
You're all I want all the time
And the days don't end, 'cause

I'm losing sleep, yeah you stole it
I can't keep on checking my phone, no
I'm out with my friends but I
Think of you instead

Is it alright if I got to know you better?
Is it alright if I told you how I feel?
'Cause you could be more than a stranger
So tell me what I need to hear
Is it alright if I got to know you better?

Got to know you better?

You could be more than a stranger
So tell me what I need to hear
Is it alright if I got to know you better

You won't dance with no one else
What's the point in that
We're drinking just to be ourselves
Like it's all we have, but

I'm losing sleep, yeah you stole it
So tell me what I wanna know, 'cause
I just want you to myself
But I have to ask

Is it alright if I got to know you better?
Is it alright if I told you how I feel?
'Cause you could be more than a stranger
So tell me what I need to hear
Is it alright if I got to know you better?

Got to know you better?
(Alright if I got to know you better)

I'm losing sleep, yeah you stole it
Please tell me what I wanna know
Is it alright if I got to know you better?

Is it alright if I got to know you better?
Is it alright if I told you how I feel?
'Cause you could be more than a stranger
So tell me what I need to hear
Is it alright if I got to know you better?

Got to know you better?
(Alright if I got to know you better)
(Alright if I got to know you better)
