

# Cross the Line

Justin Garner

[1st Verse]

Like wild horses running wild  
Like two lovebirds going out  
She and I, undivided  
It's time we cross the line  
Been here since forever  
I remember when you had your first date  
Mr. so and so  
He was so blind  
But now I got you

[Chorus]

And we run, we love  
Like it's do or die  
She and I  
And we fight, we cry  
Tonight let's cross the line, tonight let's cross the line  
You and I

[2nd Verse]

Walking down a crowded street, then we meet  
It's been so long, since I felt  
Your hair, your lips on me, every part of me  
Is feeling like I'm on the sea  
Sick with it, how you killing me  
I still see you got that body that you threw on me  
So many times  
Repeated, memory repeated, got ya boy heated  
And I can't seem to calm down

[Chorus]

And we run, we love  
Like it's do or die  
She and I  
And we fight, we cry  
Tonight let's cross the line, tonight let's cross the line  
You and I

Felt so alone when you left, had me waiting forever and ever  
So many other girls came my way, they couldn't equate to you  
I swear'd if I saw you again, we would run away, never to return  
Second chances await

[Chorus]

And we run, we love  
Like it's do or die  
She and I  
And we fight, we cry  
Tonight let's cross the line, tonight let's cross the line  
You and I
