Flames

Justin Garner

Can't keep my hands to myself
So they're out of control
Take a sin or a curse
I can't seem to let you go
I want you baby

I don't wanna be alone
I don't wanna hold you close
We should stop

Let's make it understood
I don't need your love
I can't stop

All flames never burn down nigga
Just when youre in love
We got one day nigga
How I feel nigga
Just get it all

We got one day nigga
How I feel nigga
Just get it all

Nanananana
Like lipstick on my neck
Sometimes it ain't have to go
Like I'm trapped in a maze

I just want the days before
But it's so hard to go
When youre tired
I wont even know
Whats right and wrong

All flames never burn down nigga
Just when you're in love
We got one day nigga
How I feel nigga
Just get it all

Nanananana

Love you so that makes dropped down onto the floor
Forget our names
Lets just make love and love as more

All flames never burn down nigga
Just when you're in love
We got one day nigga
How I feel nigga
Just got to get it all
