

Heartwork

Justin Garner

I drive the miles
I always seem to find myself right back to you
Gravity is strong, but it can't seem to lift me up from you
You know where I wanna be, I hold you tight
You know it's true, must hold that in this world
You find it once, and I found it with you

(Pre-)

Just wanna make you happy
Then I feel so lucky
Every single wish came true
You say you wanna show me
But I know, I know
This is how, this is how my heart works
I luv you now, I luv you now forever
It's just simple as that, I try what I'm great at
This is how, this is how my heart works

Every night I can't believe that I can even catch you
You're the prize in my eyes, never seen a beauty quite like you
Your soul is the one I need to grow old and can caress
I'm giving in cuz I am powerless when you are who I love

(Pre-)

Tell me you're my baby
I won't take no or maybe
I just wanna be with you
I just wanna show you
What this love

This is how, this is how my heart works
I luv you now, I luv you now forever
It's just simple as that, I try what I'm great at
This is how, this is how my heart works
