

# Like There's No Tomorrow

Justin Garner

We have these of my love  
So emotional, unconditional  
No one should be without it  
It's impossible, on this earth alone  
I wanna love ya, touch every part of your body and so  
I wanna know ya, show you what you been missing out on and oh  
Let your mind be free, just come with me  
Oh yeah, put our hearts up now

So let's make love like there's no tomorrow  
Like it's the end of the world tonight baby  
This is the one last call, like there's no tomorrow  
Like it's the end of the world tonight baby  
Let's go, we'll make love  
Make love, let's make love like there's no tomorrow  
Make love, make love like there's no tomorrow  
Make love, let's make love

Your intuition won't deceive ya  
Forget what you know, I'll hold you close  
Every single human being needs  
A little bit you know, that's how we grow old

So let's make love like there's no tomorrow  
Like it's the end of the world tonight baby  
This is the one last call, like there's no tomorrow  
Like it's the end of the world tonight baby  
Let's go, we'll make love  
Make love, let's make love like there's no tomorrow  
Make love, make love like there's no tomorrow  
Make love, make love

Nobody's perfect but it's perfect to be in love  
Don't leave this world without it, take a chance and say you've  
done it  
Let down your guard girl and go for the target  
Only way is up from down, girl, and let's go

And let's go, we'll make love  
Make love, let's make love like there's no tomorrow  
Make love, make love like there's no tomorrow  
Make love, let's make love
