

## Make a Scene

Justin Garner

I don't want to wait, why we gotta hesitate yeah  
Me and you, we got history and I want a reconciliation  
Like a moth to a flame  
Light to a fuse  
You'll be right there, when I put it right on you  
(Oh)  
Girl I can't be complacent  
Tell me girl, tell me what you gone do  
Ooh they ain't got nothing on you  
And I know it's truth baby, you know it, you make me  
Fall out, when I can't get it, I'm so impatient  
I just want to make a scene in the spot  
Scene in the spot baby  
Tell me baby am I asking a lot, asking a lot yeah  
I just want to make a scene in here with us  
Come on show me you believe in love and trust  
Simmer down, simmer down, simmer down now  
Love me now, love me now, love me now  
I just want to make a scene in here with us  
Love me now, love me now, love me now  
I don't want to keep us a secret no  
Yeah I'm down for whatever, love won't let us go  
When I'm coming straight for you, put it all on me  
Baby if you know, won't you give me what I need  
(Oh)

Girl I'll take all the blame  
Tell me girl, tell me what you gone do  
Ooh they ain't got nothing on you  
And I know it's truth baby, you know it, you make me

Fall out, when I can't get it, I'm so impatient  
I just want to make a scene in the spot  
Scene in the spot baby  
Tell me baby am I asking a lot, asking a lot yeah  
I just want to make a scene in here with us  
Come on show me you believe in love and trust  
Simmer down, simmer down, simmer down now  
Love me now, love me now, love me now  
I just want to make a scene in here with us  
Love me now, love me now, love me now  
I love it when you touch me baby  
All over and it keeps me thinking  
How life would be if we could make it  
How life would be if we could make it  
Don't care who's watching, just come take it  
To places that you've never been girl  
I swear I know you'll like it  
I put that on my life yeah  
I just want to make a scene in the spot  
Scene in the spot baby  
Tell me baby am I asking a lot, asking a lot yeah  
I just want to make a scene in here with us  
Come on show me you believe in love and trust  
Simmer down, simmer down, simmer down now  
Love me now, love me now, love me now  
I just want to make a scene in here with us  
Love me now, love me now, love me now
