

Rush

Justin Garner

Tell me why we gotta rush
Feel it coming to erupt
Tell me why we gotta rush
Tell me why we gotta rush
Don't try to rush

We do the most in the night time
I come alive at the right time
Tell me what you wanna know about love
Tell me what you wanna know about love
I spy with my right eye
Something sexy on the right side
Tell me what you wanna know about love
Tell me what you wanna know about love
Way I'm missing you feeling so crazy
Come on don't shoot the messenger baby
Acting up got me feeling contagious
Can't contain it

Tell me why we gotta rush
Feel it coming to erupt
Tell me why we gotta rush
(Don't rush me)
Tell me why we gotta rush
Don't try to rush

Don't rush me, no
Don't rush me

We got all day and I'm wanting seconds
Lay it down go ahead and bless it

Chill me to the core
Brings me to the floor
I been studying like a student
Teach me
And I'm down to prove it
Ooh I want more
Keep it coming I'm all yours
Way I'm missing you feeling so crazy
Come on don't shoot the messenger baby
Acting up got me feeling contagious
Can't contain it

Tell me why we gotta rush
Feel it coming to erupt
Tell me why we gotta rush
(Don't rush me)
Tell me why we gotta rush
Don't try to rush

Don't rush me, no
Don't rush me

We living long til the sunlight
We making love til the sunrise
We living long til the sunlight

We making love til the sunrise

Tell me why we gotta rush
Feel it coming to erupt
Tell me why we gotta rush
(Don't rush me)
Tell me why we gotta rush
Don't try to rush
