

## Consecutive Days Alive

Justin Moore

They were talking 'bout streaks and chains not broken  
And rolls that they were on  
Ol' wagons they fell off of, ol' habits still going strong  
And I was kinda sipping on a draft beer tryna be just a fly on the wall  
When they looked at me for my two cents and they got it all

I said, I've run hard with the devil, leaned heavy on the pedal  
Put some dents in Detroit metal, pushed my luck rolling the dice  
Gave my mama's prayers a good run, I been cut some slack and then some  
Every crazy thing that you've done, there's a good chance I've done twice  
Boys, today I'm just proud to say that I broke my record for consecutive days alive

Next thing I knew there were longnecks clanking, raised up hell, yeah high  
We threw 'em upside down and went one more round, a few more times  
We relived all our best days and the times we dropped the ball  
And I said thank God for all the close ones that turned into wake-up calls

I've run hard with the devil, leaned heavy on the pedal  
Put some dents in Detroit metal, pushed my luck rolling the dice  
Gave my mama's prayers a good run, I been cut some slack and then some  
Every crazy thing that you've done, there's a good chance I've done twice  
Boys, today I'm just proud to say that I broke my record for consecutive days alive

Yeah, gave my mama's prayers a good run, I been cut some slack and then some  
Every crazy thing that you've done, there's a good chance I've done twice  
Yeah, boys, today I'm just proud to say that I yeah, boys, today I'm just proud to say that I broke my record for consecutive days alive  
Just proud to be alive
