

Closer

Justin Nozuka

California hits over night
Pay it forward and take no advice

Stand your ground
Watch me float
Watch me bend light
Winding roads
We both know
That deep inside
You left your mark on me

I wanna be closer
Love over and over

Looking at you what is life
Taking me places I don't go
Gravity gone for the night
You and I moving in slow motion

Lean
How you keep moving the right way
Can tell you been living your life, babe
You light up the room like you're lightning

And I wanna be closer
Cum over and over
Girl, pull me in closer
I don't want it to be over
