

Horizon

Justin Nozuka

Can't believe that this is real life
Talking with you all through the night
It's like we're riding deep into the horizon
And the sun just started climbing

Yesterday was full of off's and maybe's
I've been optimistic lately

Every time you hold me close and tell me
You love me
You love me
I
I feel safe

Can't believe that this is real life
How we diss the way that we fight
It's like we're riding deep into the horizon
And the sun just started climbing

In a world that's jaded and so shady
I've been optimistic lately

Every time you hold me close and tell me
You love me
You love me
I
I feel safe
