

## Running Back

Justin Nozuka

Did you know  
I keep running back to you?  
Tell me, can I still get through?  
Do you like when I get frustrated too?  
Do you?

Feels the worst when you're always on the move  
I saw you from a different light  
I fell to my knees, what a surprise  
Didn't, didn't  
Didn't think I'd fall in love with you

Like I've known you from a different life  
Are you going off or for coming inside?  
Is there, is there  
Is there someone else in front of you?

I guess, we met  
In summer had a good time, ya  
Forget the rest  
But don't give me these bad vibes  
Look, I can't take it

Did you know  
I keep running back to you?  
Tell me, can I still get through?  
Do you like when I get frustrated too  
Do you  
Feels the worst when you're always on the move
