

Take It or Leave It

Justin Nozuka

Baby I've been here before
Slowly dancing in the rain
Keep your feet on the ground
Let the moment take the way

You know I've been tryna hold
The feelings that won't stay
They've been here with me tonight
I'm not sure they'll go away

Take it or leave it
I'm already yours
Right here beside you
Let's walk through that door
Wherever I'll follow
Never been so sure
Not willing to fight it anymore
Not willing to fight it anymore

Never wanted you to stop
And now we're out beyond the clouds
Doesn't matter what he thinks
You know what you're about

So take it or leave it
I'm already yours
Right here beside you
Let's walk through that door
Wherever I'll follow
Never been so sure
Not willing to fight this anymore
Not willing to fight it anymore

Is it wrong can't be wrong
If you take and you're giving
All these nights in deep signs
We've been oh really living

Is it wrong can't be wrong
If you take and you're giving
I realized it
I realize it
