

10PM

Justin Stone

It's 10PM and I am still in bed depressed
Already know girls like you always be my death
It's like 10PM and I am still in bed
Depressed, already know girls like you be my death

We both hate ourselves, you hate yourself for staying with me t
hrough it all
I hate myself for doing what I'm doing
Bad influence, far from ruined but too far gone
Cannot save the day, the ship is sinking, save yourself

It's 10PM and I am still in bed depressed
Already know girls like you always be my death
It's like 10PM, I'm still in bed depressed
Already know girls like you always be my death

All the time
I was chasing so much more, heart was vacant
I can't lie, you're the reason I get wasted
I'm ignoring all my texts, seeing who gon' check up twice
Karma bites, it's my life, it's not perfect but it's mine, yeah

It's 10PM and I am still in bed depressed
Already know girls like you always be my death
It's like 10PM, I'm still in bed depressed
Already know girls like you always be my death

We both hate ourselves, you hate yourself for staying with me t
hrough it all
I hate myself for doing what I'm doing
Bad influence, far from ruined but too far gone
Cannot save the day, cannot save the day
