

Bill\$

Justin Stone

Yeah, yeah, ooh
This thing is too for real so take the wheel
I want the bills like it's raining out the air
Disappointed, disappeared but poof, I'm gone
Where'd I go, I don't know
Yeah, this thing is too for real so take the wheel
I want the bills like it's raining out the air
Disappointed, disappeared but poof, I'm gone
Where'd I go, I don't know

I'm addicted to the stunt, this shit is fun
Steal your one cause I'm that one, bet she go and tell her friends
Like come here and look at this
Always stickin' to my guns, can't fall for another you
Cause if she bad now then I run
Cause the hottest shawty be that crazy level, looks like red flags but I need someone like me
Toxic, she's an escort but it's free cause I'm no John
I'm just someone she'd drop it all for, that's her dream
Yeah, know you hate my guts
Yeah, want some payback for all this shit I've done
Yeah, I know you hate my guts
You want your payback for all this shit I've done

This thing is too for real so take the wheel
I want the bills like it's raining out the air
Disappointed, disappearin', poof, I'm gone
Where'd I go, I don't-
Yeah, this thing is too for real so take the wheel
I want the bills like it's raining out the air
Disappointed, disappeared but poof, I'm gone
Where'd I go, I don't know
This thing is too for real so take the wheel
I want the bills like it's raining out the air
Disappointed, disappeared but poof, I'm gone
Where'd I go, I don't know
