

Die

Justin Stone

And we don't give a fuck if we gon' die tonight
Pour the liquor, bring the loud
You know what we like
'Cause we all gonna die
All gonna die
End of the world, I'm gonna do this what I like
I fear nothing but the last breath, I'm still alive
'Cause we all gonna die
All gonna die

Used to fear death
Till I almost took my life, said "fuck that shit"
Nowadays, see, I just smoke that clip
120 in the i8, shotgun got a LA hoe rollin' one up for me
Sittin' real low with her feet up, aye
My hoes prolly think I'm Bieber, aye
Leave her on read 'cause I can, aye
We ain't even up yet, say they wanna act tight
Leave her on a bench since she wanna act right
I puff puff pass, this shit too good, can't blow my high
I don't need a diva, don't get even
I just get high to lose my feelings
Lose my feelins', aye

We don't give a fuck if we gon' die tonight
Pour the liquor, bring the loud
You know what we like
'Cause we all gonna die
All gonna die
It's the end of the world, I'm gonna do this what I like
I fear nothing but the last breath, I'm still alive
'Cause we all gonna die
All gonna die
Yeah

And we don't give a fuck if we gon' die tonight
Pour the liquor, bring the loud
You know what we like
'Cause we all gonna die
All gonna die
It's the end of the world, Imma do this what I like
I fear nothing but my last breath, I'm still alive
'Cause we all gonna die
All gonna die
