

Haze

Justin Stone

Stuck inside my head, stuck inside my head yeah
(Stuck inside my head, stuck inside my head)
Stuck inside my head, stuck inside my

Stuck inside my head, everybody want me dead
Cause I'm doing something, something they ain't never did
Used to pray for a break, blessed now we rich
Betting on your plays, they told me don't take that risk

Yeah finally found my sound, build up from the basement where we now
Got depressed, wanted to quit when they wouldn't hear me out and now I'm tou
ring
Now they stressing
Cause they know that, cause they know I'm coming for it
Living out my dream since 23 like Jordan
She text me like a hundred times so I ignored it
Since the money came quick, people changed too
Be careful what you wish, all my wishes came true and we know it
Yeah, and we know it
Yeah, yeah, yeah
Yeah my life abouta change, bouta be a haze and we know it
And we know it

Stuck inside my head, everybody want me dead
Cause I'm doing something, something they ain't never did
Used to pray for a break, blessed now we rich
Betting on your plays, they told me don't take that risk

They told me don't take that risk, so I did
Take that risk, so I did yeah
They told me don't take that risk, so I did
Take that risk, so I did yeah

Ten people to ten thousand, know that we gon rage
Middle finger to everyone that tell me that I've changed
Every girl been bout it, haters still gon doubt it
I find it funny, my parents still don't grasp how much that I make
Taking no breaks, this is my fate
I'm not content, I wanna be great
Jump from the stage, here cause I love it you here cause of the fame
No wonder you ain't doing nothing too special, I just broke a new threshold
She get mad cause I don't double text, I don't chase
Hundred thousand artists tryna keep up with my pace
I won't hit the booth unless I got something to say
I been quiet lately, patient albums on the way
True and we know it
And we know it
Yeah, yeah
Yeah my life abouta change, bouta be a haze and we know it
And we know it

Stuck inside my head, everybody want me dead
Cause I'm doing something, something they ain't never did
Used to pray for a break, blessed now we rich
Betting on your plays, they told me don't take that risk

They told me don't take that risk, so I did

Take that risk, so I did yeah
They told me don't take that risk, so I did
Take that risk, so I did yeah

Yeah, yeah, yeah
Take that risk so I did, take a risk so I did yeah eh
They told me don't take that, yeah, yeah
