

just breathe

Justin Stone

Yeah, I just breathe and clear my mind
It's us against the world
So sick of gettin' by
I feel safer in a pinch
No backup, let's go get this shit
No backup, let's go

Tourin' out west for the flex
When I fling on the six and the ten in my bed
Everybody young, where the smoke?
I've been rich, I've been broke
One thing ain't changed, I'm the shit
When I get curved that's it
Now I gotta glow up on the bitch
Y'all know you're not shooting at the kid
Going 69 in the 40 tryna feel alive
Cause I wanna die, don't care, I don't give a shit like

Yeah, being reckless on the fence
If I wanna watch me get that's a bet
Call me whack on YouTube from your momma' crib
Do you 45, quick cover make me cringe
Yeah, if y'all don't get it right then y'all gettin' left
And we ain't even met but she already wet
Feel like Tarantino, everybody wanna make a flick
Aye, weed in my lungs cause we all gonna die
I fear nothing except Maker and time
Way too locked in but still puffin' the pine
I teach that hoe how to end, how the bullshit gets set up
In five years I hope I am not working retail
Her number blocked cause we hit me by email
Dammit, I'm back and this good shit be legal

Just breathe and clear my mind
It's us against the world
So sick of gettin' by
I feel safer in a pinch
No backup, let's go get this shit
No backup, let's go get this shit
Just breathe and clear my mind
It's us against the world
So sick of gettin' by
I feel safer in a pinch
No backup, let's go get this shit
No backup, let's go get this shit like
