

## K.T.Y.G.I

Justin Stone

Would you love me if I was famous  
Would you love me if I was not  
This fake love only entertains us  
I want that real love  
Where you at

I hope my future girl is hearing this right now  
I hope I look out and see you every time I got a crowd  
I doubt we have even met  
I doubt we have even talked  
Getting closer to each other every person we break off  
Yah  
A lot of women are here for the wrong reasons  
Probably why a new girl comes with new seasons  
Yo  
Now they want the fame  
Now they wonder why  
I've been stressing out  
I can barely sleep at night  
My past lovers  
They All haunt me  
Your mans great but be real he  
Can't top me  
No  
Now I crave that love  
The love I never had  
I'm so done with fake  
I just want that love to last

Would you love me if I was famous  
Would you love me if I was not  
This fake love only entertains us  
I want that real love  
Where you at  
Would you love me if I was famous  
Would you love me if I was not  
This fake love only entertains us  
I want that real love  
Where you at

If I ever settle down  
Just know that you got it  
Know that you got it  
Know that you got it  
Yeah girl  
You the one  
Just know that you got it  
Know that you got it  
Know that you got it  
If I ever settle down  
Just know that you got it  
Know that you got it  
Know that you got it  
Yeah girl  
You the one  
Just know that you got it  
Know that you got it

Know that you got it

I heard that patient is a virtue  
But I've been waiting on that one that won't desert me  
Hope you loyal, hope you're driven  
Hope you understand my movement  
Want you to push me  
When I feel like I can't do this  
Ya  
Did you see me way before the world knew my name  
Did you really love Justin way before the fame  
When I look around, do I only see your face  
That's the love I want  
The love that never change

Would you love me if I was famous  
Would you love me if I was not  
This fake love only entertains us  
I want that real love  
Where you at  
Would you love me if I was famous  
Would you love me if I was not  
This fake love only entertains us  
I want that real love  
Where you at

If I ever settle down  
Just know that you got it  
Know that you got it  
Know that you got it  
Yeah girl you the one  
Just know that you got it  
Know that you got it  
Know that you got it  
If I ever settle down  
Just know that you got it  
Know that you got it  
Know that you got it  
Yeah girl you the one  
Just know that you got it  
Know that you got it  
Know that you got it
