

# Never Know

Justin Stone

No one, no one  
No one, no one

No one here  
A year ago they told me that I would never know (never know)  
Never know 'bout this feeling  
Now I'm on the phone (on the phone) with your girl, take your chick  
Round my waves, steal my flow, 'cause sixteens until we rich  
No one here

Never know 'bout this feeling  
Now I'm on the phone (on the phone) with your girl, take your chick  
Round my waves, steal my flow, 'cause sixteens until we rich (yeah)

Don't tell me to slow my role  
I can't help it, really, the fast life is all I know (yeah, yeah)  
I got feelings but won't let it show  
Don't know who I am no more  
'Cause I hate it so, I don't wanna be alone (I don't)  
You got a pass, well so do I  
Underground but feeling fly  
Heads will roll when I arrive  
Walking in, I got the ice (I don't need it)  
Yeah, yeah, yeah, it's no surprise  
When they talking 'bout who's poppin', bet they on it droppin' mine

Can't see the ten (no), we killin' it  
Remember days when I was coming up (yeah), we wished for this  
Now we got it, check my contact list (check that, check that), let's manifest  
Doing numbers before 22, that Emma Smith  
I don't got a tear to cry, swear I'm too alive  
Pressure cavin' in, but all my fans won't let me die  
Yeah, yeah, yeah, we on the rise  
Yeah, yeah, yeah, get on that white  
Ever since I've gone melodic  
All my fake fans say I changed (say I changed)
