

# Painted Black

Justin Stone

Limo tint, get that whip, painted black  
Got it all, on my own, hated that  
Lost it all, in a year, made it back (made it back, back)  
This ain't bars, this is, this is straight up facts  
Limo tint, get that whip, painted black  
Got it all, on my own, hated that  
Lost it all, in a year, made it back (made it back, back)  
This ain't bars, this is, this is straight up facts

Ex girl in my head still like, "Why?"  
But I left that girl on read still like  
"I, wish I knew how love feel"  
Why? I don't wanna be alone (I don't)  
Got my feet up, I have everything and more (I do)  
Yeah, they love me now, that's something I can't ignore (uh-huh)  
Where were y'all before?  
Way before the dream  
They ain't always real, ay  
They ain't who they seem

Limo tint, get that whip, painted black  
Got it all, on my own, hated that  
Lost it all, in a year, made it back (made it back, back)  
This ain't bars, this is, this is straight up facts

My past reasons I don't sleep (don't sleep, yeah)  
I feel like God done chose me (chose me, yeah)  
Some still don't know me (you don't know)  
But judge me like we're homies  
Working 'til I'm passed out  
Cause I don't need too much now (no, I don't)  
This I write, and I feel good  
Tell me how y'all feel now

Limo tint, get that whip, painted black  
Got it all, on my own, hated that  
Lost it all, in a year, made it back (made it back, back)
