

# The Man

Justin Stone

Yeah, yeah, lately pop designer tags  
I'll just throw it in them bag  
Mixin' love with that effort, now we on the map  
I'm a beast, kiss my girl on the cheek  
Yeah, my girl a bad as ever, but that only be for me  
Y'all don't know, you saved my life  
Y'all go better take that real  
Year ago wanted to die, 2018, I'm still here  
2020, we gon' blow up  
Take an L if you don't know us  
Spendin' every check that's comin' in

Yeah, feel my pain  
Every track, bet it bangs  
Caught it all? What I say?  
From a boy to the man  
From a boy to the man  
Feel my pain  
Every track, bet it bangs  
Caught it all? What I say?  
From a boy to the man  
From a boy to the man, ay  
(From a boy to the man)  
(From a boy to the man)  
(Let that, let that, ride)  
(Let that, let that, ride)  
(From a boy to the man)  
(From a boy to the man)

Yeah, confident but self-conscious enough to say  
That I'll even be happy on the day that I make it  
Lookin' happy online with years, got better fakin'  
Tellin' y'all I'm feelin' empty, might just be an understatement  
From years of no one listenin', to blowin' up  
From shows with twenty people, now they showin' up  
Nobody in my bracket be as cold as us  
Said they wack, but let's be honest, they don't flow like us

Yeah, feel my pain  
Every track, bet it bangs  
Caught it all? What I say?  
From a boy to the man  
From a boy to the man  
Feel my pain  
Every track, bet it bangs  
Caught it all? What I say?  
From a boy to the man  
From a boy to the man, yeah  
(From a boy to the man)  
(From a boy to the man)  
  
(From a boy to the man)  
(From a boy to the man)
