Justin Timberlake

Da-da, da-da-da  
Da-da-da, da-da-da  
Da-da, da-da-da  
Da-da-da, da-da-da

Well, there she goes  
On the floor, let's do it, no more talkin' (No more talkin'), huh-uh  
Did anybody notice?  
The energy just shifted when we drop that  
Ooh, and I drop it (And I drop it), ooh  
I don't flex, but I might  
Groove about to take flight?  
'Cause the night is young and the music's on  
And we got love on sight

The sky was the limit  
Now, the stars where we're livin'  
It's the vibe and we're in it  
It'll blow your mind

It's so perfect, perfect, perfect  
A hundred percent  
Put us together in the work you'll get  
Yeah, it's so perfect, perfect, perfect  
Harmony's so gold  
And you'll never, ever wanna let it go  
Ooh

They keep on watchin' us, watchin' us  
We don't pay them no mind (We don't pay them no mind, no mind, no mind)  
There ain't no stoppin', no stoppin'  
If we ain't pressin' rewind (Rewind, rewind)

The sky was the limit  
Now, the stars where we're livin'  
It's the vibe and we're in it  
It'll blow your mind

It's so perfect, perfect, perfect  
A hundred percent  
Put us together in the work you'll get  
Yeah, it's so perfect, perfect, perfect  
Honey, so close  
And you'll never, ever wanna let it go  
Ooh

I don't flex but I might  
Groove about to take flight?  
'Cause the night is young and the music's on  
And we got love on sight  
Yeah, I don't flex but I will  
I ain't lacked the skills  
'Cause when I do my dance, you put up your hands  
Yeah, you can't buy these thrills

It's so perfect, perfect, perfect  
A hundred percent

Put us together in the work you'll get  
Yeah, it's so perfect, perfect, perfect  
Honey, so close  
And you'll never, ever wanna let it go (Let it go)  
Ooh  
Perfect, perfect, perfect
