

Far Away In Another Town

Justin Townes Earle

Well I'm leavin'
Tonight babe on a midnight train
I got to get out while I still can
Cause that woman don't do nothing ah but bring me down
So I think I can be lonesome far away in another town
I'm standing outside in the poorin' rain
Every half an hour them trains comin' rollin' back again
So the next time you come lookin' no I won't be around
Cause I think I can be lonesome faraway in another town
Somewhere where the wind blows just as cold
Well, I think I can be lonesome on my own

Somewhere where the wind blows just as cold
Well, I think I can be lonesome on my own
Oh so that sun is risin' up over cold steel tracks
It's passing sad face and ol burn out shack
It's wind me low and it's windin' me down
It's winding me lonesome faraway in another town
It's winding me lonesome faraway in another town
