

# Frightened By The Sound

Justin Townes Earle

Silence broken  
Thunder roll  
Followed by the bright light  
From a lightning strike  
Wind is pickin' up  
To a low moan  
Feel the pressure drop  
Rain start and stop

Storm coming  
No way it's gonna miss us now  
Storm coming  
Don't be frightened by the sound

Moment of silence  
Uneasy still  
Then come the steady rain  
Hard against the window pane  
But keep an eye on the river  
It's already up  
There's no need to worry yet  
Let us not forget  
That last time rain  
Come down like this  
So much was lost  
We'll never know the true cost

Storm's coming  
No way it's gonna miss us now  
Storm coming  
Don't be frightened by the sound

There's so much at stake  
How far will it go?  
Only a fool would place such a bet  
On which way the winds will blow

There's no way of knowing  
What the damage will be  
We can't just live on hope  
We'll never get out alone

Storm coming  
No way it's gonna miss us now  
Storm coming  
Don't be frightened by the sound of it  
Don't be frightened by the sound
