

Another Boy

Justine Skye

Boy you're cute and I think you're cool, but don't fall, don't
be foolish
We're not meant to be cause I'm somebodies one, I can't do this
You keep callin, I keep ignoring, you know I know better
But get it through your head, I'm not leaving him no, no never

I thought that you knew front he moment we met
I'm not gonna let you get into my head
You're just another, another
You're just another boy [2x]
I'm sorry if I led you on
So sorry if i wasted your time
You're just another, another
You're just another boy

I saw you and you saw me too, I'm not dumb, no I'm not stupid
What you seek you won't get from me, I'm not yours, there's no
cupid
I thought we were on the same page maybe I, was too friendly
Don't know what to say, I know your heart is full, but mine's e
mpty

I thought that you knew front he moment we met
I'm not gonna let you get into my head
You're just another, another
You're just another boy [2x]
I'm sorry if I led you on
So sorry if i wasted your time
But you're just another, another
You're just another boy
Ooo, Yeah
You're just another
You're just another boy

You're just another, another
You're just another boy [2x]
I'm sorry if I led you on
So sorry if i wasted your time
You're just another, another
You're just another boy

Oy, oy
