

# Do It Right

Justine Skye

Look at you  
What are you tryna prove?  
Like we don't know the truth  
How do you get confused?  
Baby, you don't mean it and I don't need it  
All of that talk keep it, keep it

You know me, ain't the only one I see  
Ain't the only one I need here  
But if you play your cards right, hmm  
Baby, you're mine, only for the night  
Can you do what I like?  
Wanna know if you can do it right, yeah

You ain't gotta tell me who you been with  
I don't give a fuck 'bout where you go  
I been dodgin' all your calls  
Laid up with another nigga that you know (Yeah)  
We ain't gotta act like this  
Something we did before (Yeah)  
I'm just tryna catch a vibe  
And if you got a problem maybe you should go  
Walked in the club, headed straight to the back  
And you grabbin' my ass  
Hold on, boy, know you actin' up  
Don't get attached, keep me tucked in the cut  
'Cause I know it ain't love with you  
No good as fuck, yeah

You know me, ain't the only one I see  
Ain't the only one I need here  
But if you play your cards right, hmm  
Baby, you're mine, only for the night  
Can you do what I like?  
Wanna know if you can do it right, yeah

It's about time, where do we go?  
Know you been waitin' on my cue, so  
Sittin' on top make your eyes roll  
I'ma show you what I like, stroke my ego

You know me, ain't the only one I see  
Ain't the only one I need here  
But if you play your cards right, hmm  
Baby, you're mine, only for the night  
Can you do what I like?  
Wanna know if you can do it right, yeah  
You know me, ain't the only one I see  
Ain't the only one I need here  
But if you play your cards right, hmm  
Baby, you're mine, only for the night  
Can you do what I like?  
Wanna know if you can do it right, yeah
