(I just wanna be your favorite)

I know this could be a little unusual
So I'ma tell you whatchu didn't know
You give me everything I'm crazy for
Every single time

Let you be the DJ
Play me something from the streets
Both bodies calling out, two bar harmonies
I'ma let you take the lead (The lead)
Like your magic on repeat, -peat

I just wanna be your favorite
Get your drunk and blow on these purple vapors
I can tell you want me naked
Oh, you know we on the same wavelength
I just wanna be your favorite
Get your drunk and blow on these purple vapors
I can tell you want me naked
Oh, you know we on the same wavelength

I just wanna be your favorite baby
I just wanna be your favorite
I just wanna be your favorite
Baby

You know I'm not your average or typical
