

# Hard Work

Justine Skye

Gonna work you hard  
Work you hard

Look all them chains  
Don't need none of your money baby  
This ain't one of them things  
You can't win easy from me baby  
Keep that ego at home  
None of that's gonna phase me baby  
I'm not scared to leave you alone

You ain't gonna play my heart, just like all the ones before  
You're no good and I know, but I still want you  
Play my heart, just like all the ones before  
You'll regret it

Gonna gonna work you hard, work you  
Gonna work you hard, work you  
If you want me to love you, gonna work you hard  
Show me that you're worth it [x2]

You can keep all them cars, they won't get you no further baby  
Keep on doing you part, one day you gone deserve me baby  
Don't you put on a show, if you keeping it real baby I won't have to leave you alone

You know it won't mean nothing, if you don't earn this loving  
The right way, straight to my heart
