

## Holdin Fire

Justine Skye

He is to me like sun is to skye  
I am to him like stars to the night  
He is to me like engine to roar  
I am to him like Kobe to score

I like the way he smiles, I know he likes my style, together we  
'd be super fly-i-i  
He go the extra mile, he makes it worth while, and I know I'm t  
he apple of his eye-i-i  
I can't deny-i-  
i, if he ain't mine, don't want him to be nobody else's

We the perfect combination got it on lock  
We be like the Lakers yeah, we always on top  
We be on that celebration tip we don't stop  
No we don't stop (No, no we don't stop)  
So if they ask why we're rockin' together (Imma be like)  
Go tell a friend cause it don't get no better (We been through  
the)  
Rain, and the sleet, through the snow  
And we're still holdin' that fire, burning up, never cold  
And we're still holdin' that fire (Oh, oh, oh)  
Burning up, burning up (that fire)  
Fire (Oh, oh, oh)  
Burning up, burning up (that fire)

He's always on my mind, I'm always spending time, tryna get clo  
ser to my boo  
And every time I'm gone, I'm tryna get home, cause it feels lik  
e the only thing to do, do do  
His love is true, true, true  
Can't fight no use, use, use  
Don't want him to be nobody else's

He is to me like sun is to skye  
I am to him like stars to the night  
He is to me like engine to roar  
I am to him like Kobe to score

So if they ask why we're rockin' together (Imma be like)

And we're still holdin' that fire, burning up, never cold  
And we're still holdin' that fire (Oh, oh, oh)  
Burning up, burning up (that fire)  
Fire (Oh, oh, oh)

Burning up, burning up (that fire)
