

MAYBE

Justine Skye

Said I'm your wife now
And I'll take you
Any way I want
Any way I like it baby
Said I'm your love now
And you can take that
Any way you want
Any way you like tonight

I'm feeling I got your vibe
Big energy tonight
You are the reason why I'm high
So take out your wings and fly
Know I'm the reason why, yeah

Baby, maybe
Take me, baby
I'll go at your lead
Drive me crazy
You ain't gotta persuade me

I know I'm your lady, uh
Accepting all your love baby, yeah
Really been lost in you, ah
Let me hold onto you, ah
Dive into me
It would be sin not to taste all of you
Have me any way you want tonight

I'm feeling I got your vibe
Big energy tonight
You are the reason why I'm high
So take out your wings and fly
Know I'm the reason why, yeah

Baby, maybe
Take me, baby
I'll go at your lead
Drive me crazy
You ain't gotta persuade me

Seeing you
Sitting there
With the best of me, oh
Feeling you, with all my love
Baby we have chemistry
Baby we have chemistry
Baby we have chemistry
Baby we have chemistry
