

Never Leave

Justine Skye

I feel your energy, boy you know my leverage (eh)
We got this energy, you take my heartbreak away
And on my darkest days, you show me a better way [x2]
It makes me love you more

All these other dudes don't seem to add up
The way you do
Always said I don't say it enough
(you complete me baby)

I'll follow your lead (yeah)
Boy I'll never leave ya
Love me putting your hands on me (oh)
I can't believe you're laying next to me (oh)
I'll never leave ya [x2]
Show me something about love and I'll show you something about love
We ain't worrying about nothing I got it I got you
I can't believe you're laying next to me (oh)
I'll never leave ya [x2]

Some things are meant to be, baby it's so clear to see (yeah)
We built this chemistry, I couldn't ask for more
Always see eye to eye, wanna be around you all the time
