

# Too High

Justine Skye

You said  
You'd be here forever, something clever  
It's alright  
I won't ask you to stay  
No  
The fact is, that I've been all alone  
Oh, I can't see you with nothing  
And my heart is so cold  
But right now I'm so tired of dancin'  
All these things I'm fakin' for you  
I've been chasin' for you  
I've been [?]  
I could die waitin' on you  
I could drown in all of it, but nothing compares

I was too high  
Off your supply  
Couldn't stay down, I don't know why  
I was too high  
I was too high  
Too high, too high, too high  
Off your supply  
Couldn't see the ground from the bird's eye  
Way up, never stay down  
See me up, never see me down

You know  
At this time of night  
When you're singin' out  
I'm somewhere underground, like  
Gettin' it, raw  
Breakin' dead, yeah-yeah  
I was straight, oh no  
Told me not  
And I stopped the drinkin' for you, boy  
I was wildin', yes I know  
I can take it overboard  
Thought I'd never be this over  
But now, I lost myself a little  
Tryna get another dose of you

I was too high  
Off your supply  
Couldn't stay down, I don't know why  
I was too high  
I was too high  
Too high, too high, too high (Too high, too high, too high)  
Off your supply  
Couldn't see the ground from the bird's eye  
Way up, never stay down  
See me up, never see me down

Tired of dancin'  
Fakin', for you

I could die waitin' on you  
But nothing compares

I was too high  
Off your supply  
Couldn't stay down, I don't know why  
I was too high  
I was too high  
Too high, too high, too high (Too high, too high, too high)  
Off your supply  
Couldn't see the ground from the bird's eye  
Way up, never stay down  
See me up, never see me down
