

catch me

JVKE

Yeah

Yeah

Last week, been a whole year but it feel like last week
When I was your boy, fallin hard in the backstreets
But you were there to catch me

Then I grew up and the sun got cloudy
Used to feel like sun on my skin, yeah its sappy, but
That's the last time I was truly happy, so I'm asking

If I fell down right now would you catch me, Yeah
If I fell down right now would you

If I fell down right now would you
Catch me catch me
Baby would you catch me
I been hurt before, are you sure that you're still gonna Catch me, Yeah

If I fell down right now would you
Catch me catch me
Baby would you catch me
Ima let go, all I know is I need you to Catch me
Would you catch me

I ain't written one love song since she left me
Trauma in my memories
When I try to hold you my body doesn't let me so
Baby would you catch me
Baby would you catch me

Baby would you catch me
Make it alright
I ain't fell in love in a really long time
Would you catch me
Look in my eyes
Tell me we're something new

I got issues with my trust
I don't wanna fall in love
So I guess I'm falling out of it
Come help me adjust

I got issues with my
I got issues from my past
Come and put them in my past

Cause baby I'm falling fast
Like 3 digits on my dash
Swervin through the backstreets
Don't you let me crash please
Baby would you catch me
Baby would you-

If I fell down right now would you catch me, yeah
If I fell down right now would you

If I fell down right now would you
Catch me catch me
Baby would you catch me
I'ma let go, all I know is I need you to Catch me
Would you catch me

I ain't written one love song since she left me
Trauma in my memories
When I try to hold you my body doesn't let me so
Baby would you catch me
Baby would you

If I fell down right now would you catch me, yeah
If I fell down right now would you
