Red was the color that I bled when you said it was over
Blue was the color of my tears when I lost my composure
Now, I spent all my green trying just to please you
I'm down on my knees for you
Red was the color that I bled when you said it was over

1...2...3...

I gotta stop, and cut the bleeding
You ripped my heart out I hadn't started healing
I'm black and blue yeah my body got some bruises
I always lose got me chucking up the deuces

Baby, sunshine til you got
Shady, and I wasn't ready for it
Open your eyes, it's black and white
Yeah you ruined my life
Yeah you ruined my life girl

Red was the color that I bled when you said it was over
Blue was the color of my tears when I lost my composure
Now, I spent all my green trying just to please you
I'm down on my knees for you
Red was the color that I bled when you said it was over
