JVKE

Make me see blurry
Take away my worries

You got me singing like lavender
I can never stay mad at her
Lavender
I can never stay mad (Mad, mad)
Baby, we're a mess, but it's all okay
Reverse stress, when you call my name
Like lavender
I can never stay mad at her

Drop out, teach me how to love, it's a classroom
Hot for the teacher, with a question I gotta ask you
Girl, what's the move?
Late night Malibu, yeah
You know what you do
Got me breaking all my rules, yeah

She a bad thing
She my boo
On my better side, anything she do
She a sweet thing
That perfume
Purple everything got me in a mood

You got me singing like lavender
I can never stay mad at her
Lavender
I can never stay mad (Mad, mad)
Baby, we're a mess, but it's all okay
Reverse stress when you call my name
Like lavender
I can never stay mad at her

Oh my, oh my, I'm in love
She got everything I want
She my butterfly, my honeybee
She my lemon, she my apple treat (Sour and sweet)
For no reason, I'll be cheesin'
She look me in the eyes and I can't breath in
Exhale all this pain I been feeling
When I sing, baby girl, I hope you feel it

You got me singing like lavender
Lavender
I can never stay mad at her
I think I can never stay mad at her
Lavender
I can never stay mad (Mad, mad)
Baby, we're a mess, but it's all okay
Reverse stress when you call my name
Like lavender
I can never stay mad at her
