

## moon and back

JVKE

Baby I love you to the moon & back

Stars, talkin' like Mufasa  
Know you got some Scars, but I promise that I gotcha  
Stars singing like Sinatra  
'Fly me to the moon' there Ain't nothin' that can stop ya

Yeah My Thoughts get dark but you shine so bright  
Yeah you shine so bright  
You Got me singin' out every night  
Baby I love you to the

Moon & back  
Baby I love you to the moon & back  
And nobody above ya  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and Back  
Baby I love you to the

Stars, makin' conversation  
You connect the dots to my heart, constellation  
Car, somethin' like a spaceship  
Look up at the roof see the stars, yeah we made it

Yeah My Thoughts get dark but you shine so bright  
Yeah you shine so bright  
You Got me singin' out every night  
Baby I love you to the

Moon & back  
Baby I love you to the moon & back  
And nobody above ya  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and Back  
Baby I love you

Yeah I could spend every night  
Staring at you baby  
See the stars in your eyes  
You know how to phase me  
Like the moon u control the tides, yeah u wavy  
Malibu with you every night, goin' crazy

I could be the one for you, don't need your sign  
You could be my better side, no Gemini  
And Everytime I touch you, I Touch the sky, cause

Moon & back  
Baby I love you to the moon & back  
And nobody above ya  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and Back
