JVKE

I can't move on
From all these feelings
Our perfect ending girl, I swear I gotta see it
Let's pick back up
How could we leave it?
Because we never got to watch the second season

I remember that night when we stumbled across it
You were like what's that
I was like I don't know but I really wanna watch it
So we binged the whole thing, ran through, marathoned it
Reruns like memories
Soundtrack bring me back to our favorite melodies

Where did we fall off?
I'm tryna pick it back up there
Where did it go wrong?
I'm tryna make it right, make it right, make it right here
Wish we could go back
I'm tryna relive in the moment
We really were something, you know that it's true

I can't move on
From all these feelings
Our perfect ending girl, I swear I gotta see it
Let's pick back up
How could we leave it?
Because we never got to watch the second season

Because we never got to watch the second season

Let's pick back up
How could we leave it?
Because we never got to watch the second season

I remember that day you stumbled across it
It was my day off so you put me on
And we couldn't stop watching
Every night reruns, stay running like a faucet
In my head like a melody
Oh don't be forgetting me

Nanghihinayang
Nagtataka san ba nagkulang
Pwedeng sandali lang
Ba't parang para sa'yo ang dali lang?
Hiling sa mga tala
Want you back in Manila
It's been so long but I still feel the same

I can't move on
From all these feelings
Our perfect ending girl, I swear I gotta see it
Let's pick back up
How could we leave it?
Because we never got to watch the second season

Because we never got to watch the second season

Let's pick back up

How could we leave it?

Because we never got to watch the second season
