It was like magic,
When we disco, when we disco
So, I still can't forget it
I miss those days,
When we disco, when we disco
Do you still remember as well?

Except for you, everything's a blur
I only saw you (When we D-I-S-C-O)
I was sucked in, rapture
I didn't know even if it dawned
Where are you now?
Do you think of me now and then?
We were beautiful back in the days
Do you remember, baby?

It was like magic,
When we disco, when we disco
So, I still can't forget it
I miss those days,
When we disco, when we disco
Do you still remember as well?

Everyone would stare at us
When we danced (When we D-I-S-C-O)
Every single move sent
Chills down my spine
Can you forget it, or like me,
Cannot forget it
We were beautiful back in the days
Do you remember, baby?

It was like magic,
When we disco, when we disco
So, I still can't forget it
I miss those days,
When we disco, when we disco
Do you still remember as well?

We didn't stab the sky, but each other's hearts
Do you remember? Do you remember?
We didn't shake our hips, but each other's lives
Do you, do you remember, baby?

It was like magic,
When we disco, when we disco
So, I still can't forget it
I miss those days,
When we disco, when we disco
Do you still remember as well?
