

# 1 Mo Time

K Camp

Will I feel the same way about you the next day  
Can't keep up all these hoes I slay  
Imma eat your body up like food on my plate  
Kick it for a while but you know I can't stay  
I can tell you want me by the look in your eyes  
I can see the love dripping off of your thighs  
I can keep our secret I won't tell my guys  
1 mo time yeah 1 mo time

Kiss up on your body make you fall in love  
The way that pussy feeling might use no glove  
Shawty love affection she love kisses and hugs  
The way this night going, might need more drugs  
Fuckin' with a thug, she don't like scrubs  
Fucking around with her, you can catch another slug  
She just wanna Netflix and chill, fuck the club  
Put you in Balenci's we ain't looking at the Uggs

I can take you higher baby do you want that  
Post you on the gram you know I'm tryna flaunt that  
You know who I am, the north is where I stomp at  
Now you know me a little I'm tyrna pump that  
Ice going brazy, throw it like Brady  
I'm getting money, these n\*\*\*as can't phase me  
Pockets looking slim, and yo mans acting shady  
Yeah I'm feeling jaded I'm just glad that you made it

Will I feel the same way about you the next day  
Can't keep up all these hoes I slay  
Imma eat your body up like food on my plate  
Kick it for a while but you know I can't stay  
I can tell you want me by the look in your eyes  
I can see the love dripping off of your thighs  
I can keep our secret I won't tell my guys  
1 mo time yeah 1 mo time

I can keep your secrets if you let me keep your secrets  
Diamonds still on me while I'm swimming in your Fiji  
Gotta look classy, I got a lot to teach you  
Face like Kash but her ass like Keisha  
Roll my smoke, watch her roll with me shawty  
Imma keep swerving do it like nobody  
Sugar sweet, sweat all over your body  
Ion know who got next but I know that I got it

After we fight I beat it up, beat it up, beat it up  
Kiss you goodnight then wake you up like you ain't slept enough  
How about we have a champagne shower with jacuzzi, bubble up  
Imma think about it if you hit me I'll slide  
Like I'll be there in 5  
Daddy tell me I'm not  
I just watched last night

Will I feel the same way about you the next day  
Can't keep up all these hoes I slay  
Imma eat your body up like food on my plate  
Kick it for a while but you know I can't stay

I can tell you want me by the look in your eyes  
I can see the love dripping off of your thighs  
I can keep our secret I won't tell my guys  
1 mo time yeah 1 mo time
