

Clouds

K Camp

My head in the clouds every time that I think of you
They tell me don't worry I know what I'm feeling is true
Blue skies and they fallin', I am not myself around you
Cause my head in the clouds every time that I think of you
In the clouds, in the clouds, in the clouds

Let's go
Where you goin'? Whatchu doin'?
That ain't questions that I'm askin'
I'ma let you be free, go anywhere with me
Hop up in the seat, pour another drink, roll the weed
Now you ridin' with a G, so you finna see
How it's supposed be, how it's supposed to feel
Let me know you're high, let me know you're down
Let me know it's real, let me know you wanna chill
Let me know you want some Champagne or a paper plane
So I know the deal
I've been grindin' and a lot of time I don't never stop
You've been holdin' it down for me while I level up
Usually don't keep around me no I don't ever trust
Then when we show up, ain't no one in the line ahead of us
Hard to sleep baby girl, I don't use a bed to rest
I want you to give me your all till their ain't nothin' left
I know niggas who buy you (Purses, purses)
Sending messages like I leave your feelings hurt
Grindin' since the dirt now I'm in a 'vert (Skrrt-skrrt)
All my niggas put in work
Baby everytime you see me I look like the better version
Always been that nigga that don't do second I do first place
Try to play simple with me that don't work
No fakin' just keep it G I prefer
Jumped in a bitch ride around with my niggas
I'm rollin' that weed up and mixin' that liquor, got

My head in the clouds every time that I think of you
They tell me don't worry I know what I'm feeling is true
Blue skies and they fallin', I am not myself around you
Cause my head in the clouds every time that I think of you
In the clouds, in the clouds, in the clouds

Let's go
Head in the sky, head in the sky woah
See it in your eyes, you don't want to cry, don't go
I know you a prize, you don't want goodbyes no more
I realized that you can't be the side, no no
Workin' on myself, you know I need help
You tired of these hoes, I'm tired myself
Played with your heart, I know that didn't help
You told me to get right, instead I went left
You are a tough one to please, I can see you in my seat
I can see you on the coast, feel the breeze
I'm on my knee, beggin' you please, 'cause

My head in the clouds every time that I think of you
They tell me don't worry I know what I'm feeling is true
Blue skies and they fallin', I am not myself around you
Cause my head in the clouds every time that I think of you

In the clouds, in the clouds, in the clouds
