

# Destiny

K Camp

Where's destiny?  
Remember when I saw you  
What's meant for me?  
Oh, when I go  
Eventually  
We goin' slowly  
It's destiny  
You're always mine (Float)

Tell me where you goin', you can't leave without me  
All on your skin, you can't breathe without me  
Mans act tough, tell 'em see about me  
Mans act tough, tell 'em see about me  
I can be your lifeline (Yeah)  
Energy's always sync at the right time  
We got a bond 'til infinity, you feelin' me (Yes)  
When we apart, girl, it's killing you, it's killing me  
Ain't got no time for extra shit  
All aboard, kept the vibe and blessed up quick  
Any time that I slide, you with my shit  
Come alive, we outside, I'm with my bitch  
Bam-bam-bam  
Say you lookin' for me, here I come, come  
Get it on your own, you don't want none  
We get it our own where I come from

Where's destiny?  
Remember when I saw you  
What's meant for me?  
Oh, when I go  
Eventually  
We goin' slowly  
It's destiny  
You're always mine

Where's destiny?  
What's meant for me?  
Eventually  
It's destiny
