K Camp

Yeah yeah yeah  
Yeah yeah yeah  
Yeah, yeah yeah yeah  
Yeah yeah yeah

Shawty I'm the man  
Really ain't tryng to hear shit about the other guy  
Nah for real  
I really ain't trying to hear about that nigga  
Gotta understand  
You know that I, came to supply  
Pull up on 14th, hop in the ride  
Yes, it's a foreign, please don't act surprised  
She know my status and I'm on the rise  
How would you feel if we fucked in this party  
Pull out my IPhone and start the recording  
Kiss on the pussy, the end of the story  
She telling me to go deeper, deeper  
Slide in that pussy no Visa, she's a  
Wild one that I gotta hold up  
Lame niggas never get no love  
Fucked in the lamb with the doors up  
Now shawty walking with her nose up  
When it comes to relationships, I know I can't hold on  
You might call me selfish, I'd rather chase money, baby I'm gone  
It can't be no other way  
Was talking to my ex just the other day  
It's crazy how the love just fade away  
But I cannot trip, I got a grip  
Called my new shorty, enjoyed them lips  
Called up my jeweler, ordered the wrist  
Full of them diamonds, I can't resist  
Know a few bitches that traded on  
How the fuck you going try to play the homie  
How the fuck you going try to play the homie  
Pocket full of cheese that's Macaron  
I done ran it up now them bitches on me  
I done ran it up now them bitches on me  
These niggas running with the style now  
Been doing this for awhile now  
They want the rest of me, gave em the recipe  
I don't know why but the Lord keep on blessing me  
Can't figure out why your bitch keep stressing me  
Without a doubt man they munching they next to me  
I'm getting paid right now, money parade right now  
Hid in the shade right now, you are afraid right now  
I will not stop until I get the chair  
I know you niggas, y'all hear me out there  
They know the shit that I put out is flame  
I am King Slum remember the name  
I am King Slum remember the name  
I said I am King Slum remember the name

Yeah Slum Caesar, Slum Caesar  
You welcome
