K Camp

Hey, hey, hey  
Mm, hey, yeah

You must be important  
Started off, I was trolling  
Now I'm floating  
Come wring me out, I'm soakin'

Yellow tail sashimi from the new boo  
Hope nobody see me in the tinted coupe  
I'm a little nervous 'cause you're so fine  
Kissing on some chocolate in the night sky  
How you talkin' to me, hit the faucet  
Caressin' on my body in your broken bed  
Got some things to handle and I don't mind  
I'll be down to kick it when you got time

You must be important  
Started off, I was trolling  
Now I'm floating  
Come wring me out, I'm soakin'

I like your smile, I like your energy and attitude  
Let's get away a couple days and find some solitude  
Chasin' you like brown liquor, I'm with ya  
You got a vibe, made me reconsider  
Pretty brown skin, I can't wait to dip it in  
You said I been playin', I'm like, "Baby, where you been?"  
Every night a gamble like I'm loungin' at the Wynn (Wynn)  
Haha, let's go  
Soft kisses got me feelin' like you like me  
Shea butter rubbin' off on my white tee (Shea butter, baby)  
Chill vibes, but you funny just like pretty B (Mm)  
Once I slide, it be hard to get rid of me (Let's go)  
Once I slide, girl, I'm safe  
I know that you see me, I can see it in your face  
What's your plans later? Let's link up at my place  
Kissin' on your body while my hands on your waist, huh
