K Camp

I don't think nobody has ever seen a motherfucka come back like this, have you ever seen it? Any type of lil phrase you wanna put on it, Ain't got nun, whatever you wanna say. Who would've ever thought you'll see a mothafucka just huh on ya'll ass ya feel me boy stop playin, do ya'll know who y'all talk in to? Y'all gon watch this interview in a couple years and be like "golly he's a monster"

(I saw you tweet out "Don't call me underrated, call me undefeated")

I know your vibe you want a Birkin and some diamonds
She said I don't come with emotion but I'm trying
Look in the mirror, do you like what you see?
She think she know me 'cause she stalk my IG
The devil keep on calling me but I won't listen
I send my blessings to the Lord I need forgiveness
I try to smile, but it's pressure on me
Man I be dreaming bout them mills in my sleep

Too much smoke in this Porsche I can't breathe
Grandma told me, "Stay on your course and succeed"
Tired as hell and I just popped a perc', now I can't find my keys
Tired of all these fake niggas in my face tryna mislead
I know that you envious, get serious
They want me to give it up, gotta be delirious
Baby I was born in this shit, and my heart got torn in this shit
But we still scoring in this bitch
I be feeling guilty when my niggas they don't got it
I do what I can to try to bring in more deposits
Gotta play for keeps I told myself I gotta stop it
Gave so much of me but I need me to make a profit

I know your vibe you want a Birkin and some diamonds
She said I don't come with emotions but I'm trying
Look in the mirror do you like what you see
She think she know me 'cause she stalk my IG
The devil keep on calling me but I won't listen
I send my blessings to the Lord I need forgiveness
I try to smile, but it's pressure on me
Man I be dreaming bout them mills in my sleep

I just hit a transition I know the fans listen
I'm the goat I stand different
You know them bands different, private jet gon land different
I gotta knock it out the park today, jump on that ride girl make it spark to day
You can have my heart today, but can I get it back at a decent time
And life is decent but I see the signs, I be worried bout me and mines
I know my family think I'm changing but I'm changing for a reason
The same mindset I had back then left me grieving
Now I'm tryna switch it up cover up this bleeding
'Cause these scars ain't going nowhere no time soon
And I been tryna bring in a hundred before noon

I know your vibe you want a Birkin and some diamonds
She said I don't come with emotions but I'm trying
Look in the mirror do you like what you see
She think she know me 'cause she stalk my IG
The devil keep on calling me but I won't listen

I send my blessings to the Lord I need forgiveness
I try to smile, but it's pressure on me
Man I be dreaming bout them mills in my sleep

Don't call me underrated, call me undefeated
