

## In Due Time (Intro)

K Camp

Yea, yea  
K Camp  
Woahh  
Look

I live my life with no regret  
The bullshit that I've been through, that made me who I am  
Barely get no sleep I'm clocked at tip by 6AM  
Working on a dream where niggas barely say come true  
In Due Time; believe  
I once was filled with grieve, had to count my blessings  
Had to bow down to my knees  
So angry cause these niggas don't see the vision that I see  
No pressure, though I got this shit on lock and hold the key  
I asked them was I a friend  
I don't know bout you, I've been betrayed  
Just cause I ain't seen you nigga  
No I ain't forget  
Steal from your own partners that's a trait of a bitch  
But I'm over that  
Life too short like a skit  
I told my mama please be patient with me  
I'mma win, I know, I put you through that bull  
Don't know where to begin  
You sacrifice, to quit your job to help me chase my dream  
Strong, black, beautiful queen  
You get my respect and I love you until I'm gone  
I'm gonna say this, "R.I.P Lil Jeff!"  
I swear to God your truly missed  
Go back on that day I never cried so much in life  
It's gone be alright  
Swear I talk to him every night, amen  
In Due Time  
In Due Time  
I swear this shit just envy  
I'm just motivated to grind  
Never asked for shit, I just really took my time  
A diamond in the rough, I knew one day i would shine  
Lemme tell you bout the same pussy niggas that was hating from the jump  
I ain't have a penny, they still left me in the slump  
Running round a nigga, I just call him Forrest Gump  
Smiling in my face, I don't fuck around with chumps  
Now, it is real that I forget shit  
Put 'em on my hit list  
Killing all this competition  
You don't wanna miss this  
Get it on my chest so everyday you know it's Christmas  
A present to these hoes, never pleasant to these hoes  
See the game need change, I'm the fucking cashier  
I just stay ahead of curves while y'all stuck in last year  
And I drive these hoes crazy, hold on baby lemme steer  
I'm too cold for these bitches, but I'm hot like cashmere  
Woah

Let him breathe a little bit  
Woahh
