

New Beginning

K Camp

Born in poverty hit got stricken
Hug the block no emotions you got in ya
Run it up give a fuck if the cops come in
Slang ya tree, kick door, got the rock running
All for the family why we wild bucking
Good at blending in with the killers and junkies
Ain't authentic if they say the love me
Now my cup full over runneth
Me and mine over all or nothing
Shrouded in pain, glow through everything
Shit I'll bleed a nigga brain til a nigga sang
I can't make this shit up I got niggas slain
Mama gone that shit on my brain
How I got the name
It's a long story where do we begin
Named my diamonds Vvs
I just make it look easier than it seems
More times than feel

Tried again again a time or two
Tried a time or two
Most don't do anything check feel like a new beginning
Tried again a time or two
Fell down and I get right through everything
Made it out I can do anything

I can tell you bout them times I had to dance with the devil
You not the type to love me if I couldn't bust down your bezel
Put you down forever I'm the reason you gon step it up
VVS's shinin' new Chanel purse et cetera
Mike Amiri jeans with a burner it ain't no fear in here
When I'm alone I think about my past might see a tear appear
I'm afraid of love don't even like the month of February
I just had to shed a few on my lil niggas obituary
Diamonds on my neck but I promise it don't mean a thing to me
Family in the trenches it ain't my fault but I'm still blaming me
Momma know I'm thuggin and clutchin she still pray for me
I just left a hoe cause she wasn't solid ain't no changing me
I come from the trap and I can make it cap off anything
If I lost it all today I know you prolly wouldn't be here with me
I know I be sinning hope the Lord be forgiving me
If I tell you that I love you when I need you better spin with me

Tried again again a time or two
Tried a time or two
Most don't do anything check feel like a new beginning
Tried again a time or two
Fell down and I get right through everything
Made it out I can do anything

Tried to come back but yet you showed ya hand
I came from the bottom where they seen Quick sand
Survivor mode you probably wouldn't understand
Feeling what we tryin to make another plan
Cut niggas off I know they wasn't prolly best for me
Fuck all them hoes I let em go they puttin too much stress on me
Stack all my green no In between you wasn't even meant for me?

Already got my kin folk brothers all my team
Can't even lie I let my thoughts take over me
And when I get up on these tracks I let my soul bleed
That loyalty and all that love that's what real to me
But I just pray to God that don't be the death of me
I know some niggas lead the blind but don't feed they team
I put certain niggas on The scene then they envy me
Amiri denim filled with hunnids I done stuffed with cheese
But niggas gettin robbed even if they step to me

Tried again again a time or two
Tried a time or two
Most don't do anything check feel like a new beginning
Tried again a time or two
Fell down and I get right through everything
Made it out I can do anything
Tried again again a time or two
Tried a time or two
Most don't do anything check feel like a new beginning
Tried again a time or two
Fell down and I get right through everything
Made it out I can do anything
