When you wake up in the morning

These niggas sleeping on you

When you look at yourself in the mirror  
I know it don't get much clearer  
That these niggas sleeping on you

Chillin at the house with your boy shorts on  
With that ass hanging out, can't do nun wrong  
All in the kitchen, whippin the chicken  
Twerk while you cook, let me grab my phone  
Let me record you, letting you know I adore you  
The broke niggas they can't afford you  
Most of them niggas they boring you
