

Wake Up

K Camp

Yeah
Check check check
Wake up
Pressure make diamonds they say
Yeah
Look

Pressure make diamonds they say diamonds are forever
We can't waste no time just know these moments our to treasure
Promises to keep eyes close but I ain't sleep
This is what you get when you put wolves around a sheep

This is what you get when you put soul around a beat
Let's go
This is what your get when all your prayers get discovered
Angels tatted on me there is a reason why I'm cover
Angels tatted on me R.I.P. to my little brother

We all got problems just told tight and keep on pushing
Fall right out the sky I just pray I fall on cushion
Cameras flashing baby they keep staring they keep looking
Hater in the cut don't make them jump up out them bushes

Thinking about my past life
These niggas parasites
These niggas pocket-watch
Trying to make my pockets pop
Trying to keep my pockets lock
Trying to keep your heart sealed
Can a niggas ball on you shoo that shit like Bradley Beal

Kiss your neck and cop a feel
I be on my shit for real
I be on my- for real
Front line I keep it sealed
Front line I keep a shield

Every time I look around I got no one to lean on
Every time I wake up I'm tryna wake up to a play
Every time I wake up I got problems in my face
Every time I wake up I got to deal with something new
Every time I wake up I just pray that I'm with you
