

# I Dream Of Spring

k.d. lang

She arrives like autumn in a rainstorm  
The threat of thunder above  
I'll return from the streets of Melbourne  
I'll return my love

This world is filled with frozen lovers  
The sheets of their beds are frightfully cold  
And I've slept there in the snow with others  
Yet loved no others before

These cold dark places  
Places I've been  
In cold dark places  
I dream of spring

This world is filled with frozen lovers  
The sheets of their beds are frightfully cold  
And I've slept there in the snow with others  
Yet loved no others before

These cold darks places  
Places I've been  
In cold dark places  
I dream of spring

In cold dark places  
I dream of spring
