

# Turn Me Round

k.d. lang

Last night I heard  
A ruckus down the road  
No time to lose and so away I go  
I saw the lights  
At the junction...  
Pulled in my wheels  
And checked the show

(Turn me round)  
(They're) Dancin' round, round, round  
(Turn me round)  
Square dancin' round, round, round  
And down and round  
(Turn me round)  
They're dancin' round, round, round  
(Turn me, turn me, turn me)  
They're dancin' round  
(Turn me, turn me, turn me)

I couldn't believe it  
So I circled back and then  
Cooled up my engine  
And I walked right in  
Allemande left and rip it on up  
And circle back and go  
It was a square dance  
Like a rockin' rodeo

Wait up, little boy!

Take it home, partner  
Tears it on up and do-se-do  
Don't you let go  
Just reel and reel and reel  
And rock it all over and back  
Now circle left, then circle right...on back  
Take it from the top  
And tear it on up  
And never let her go  
Just dance a little longer

I danced and partied  
Till my feet went through the floor  
I swung my partner  
Till I couldn't stand no more  
Allemande left and circle back  
Circle round and then  
We rocked and rolled around  
And did it again
